

## **BOB McSHERRY**

Bob McSherry graduated from Platt Tech in Milford in 1984. What started in a restoration shop in 1982, he progressed into collision repair in 1985. After working in a few different shops, he came to North Haven Auto Body in 1993. He purchased the business in 1997 and has grown it to be one of the larger collision repair facilities in the state. Bob is a firm believer in having the latest equipment along with properly trained staff to get the job done right. He has three sons, who he hopes will want to carry the tradition of what he has built for a long time to come.
